Additional Remarks

Finishing your PhD with *distinction*

Austrian [University Law \(UG2002\), §73\(3\)](#):

„Bei studienabschließenden Prüfungen, die mehr als ein Fach umfassen, ist zusätzlich zu den Beurteilungen für die einzelnen Fächer eine Gesamtbeurteilung zu vergeben. Diese hat „bestanden“ zu lauten, wenn jedes Fach positiv beurteilt wurde, anderenfalls hat sie „nicht bestanden“ zu lauten. Die Gesamtbeurteilung hat „mit Auszeichnung bestanden“ zu lauten, wenn in keinem Fach eine schlechtere Beurteilung als „gut“ und in mindestens der Hälfte der Fächer die Beurteilung „sehr gut“ erteilt wurde. ...“

- You can only get a distinction on your rigorosum
- Rigorosum consists of 2 grades:
 - Dissertation subject (Curriculum2015: 20ECTS for final presentation + defense, 9 ECTS for lectures from dissertation subject)
 - Complementary Lectures (1.5 ECTS Gender Studies + 9 ECTS for lectures)
- One „sehr gut“ and one „gut“ already gives you a distinction (no matter where you have the „sehr gut“)!

Additional information from the JKU Examination and Recognition Services:

If there is a chance that you might finish your PhD [sub auspiciis praesidentis rei publicae](#), please tell them when you hand in your forms (i.e. **before** your final dissertation defense). Otherwise they will issue you a „regular“ decree and cannot do the sub auspiciis procedure any more!
